Leaders United by BID Quality Achievement

BioPro Stem Technology, from Ukraine, winner of the BID International Star for Leadership in Quality Award in Paris 2015

Paris hosted this year's BID International Star for Leadership in Quality Convention, where professionals and business leaders from around the world gathered to recognize excellence and success. In particular, the convention celebrated quality in business and operations. Award winners demonstrated commitment to the criteria of the QC100 TQM Model, which helps bolster customer satisfaction and cost efficiency across all areas of operation.

Among this year's winners, Dmytro Shorokh and Elena Melnyk of BioPro Stem Technology, from Ukraine, received the International Star for Leadership in Quality Award in the Gold Category at the BID Quality Convention in Paris. The organization has made huge strides this year as a leader not only within its sector, but also in Ukraine. The Award came as an ideal way to celebrate this past year's successes while looking forward to putting quality first in the year to come.

Paris, one of the largest cities in Europe, is considered one of the top three most important cities in the world due to its influence in politics, education, entertainment, media, fashion, science and the arts. Paris is home to some of the planet's most important international organizations including UNESCO, the Organization for Economic Cooperation and Development and the International Chamber of Commerce. The Paris urban area boasts a population of over 11 million people and is home to 37 Fortune 500 companies. Its 3,800 historical monuments and 4 UNESCO World Heritage Sites attract more than 42 million tourists per year, making Paris the most visited city in the world and the perfect location for BID's Quality Commitment Convention.

BioPro Stem Technology won the International Star for Leadership in Quality Award in the Gold category in Paris in the presence of leaders and representatives from 49 countries at the International Star for Leadership in Quality Convention. The prestigious award is presented in recognition of business excellence and innovation. From left to right: Prof. Dr. Alfonso C. Casal, Scientific Director of BID, Dmytro Shorokh, Director & Owner of BioPro Stem Technology, Jose E. Prieto, President and CEO of BID, Elena Melnyk, Medical Director of BioPro Stem Technology and Craig Miller, President of the QC100.

Dmytro Shorokh and Elena Melnyk stood before the gathering of international leaders, sharing the company's achievements to date as well as its future ambitions and goals. Despite the difficult current global economic climate, BioPro Stem Technology strives to excel in quality each day, creating a competitive advantage in its industry. For this reason, BioPro Stem Technology won the 2015 BID International Star for Leadership in Quality Award in Paris. The Award is presented by BID to those

UK's Cameron Offers Plan to Counter Attraction of Extremism

NEW YORK TIMES

LONDON — Prime Minister David Cameron is launching a five-year plan to defeat Islamic extremism, saying it's time to counter the ideology that has attracted so many young people to the Islamic State group. In a speech

companies and organizations from around the world that best adhere to excellence and innovation in their practices, putting quality first at all levels of organization.

Leaders awarded by **BID** are united by their commitment to quality in their respective sectors. This year, winning organizations include:

Hydra Arc (Pty) Ltd, from South Africa. With major clients such as Sasol, it offers services in multiple industries. It combines over 25 years of experience with top technology in order to provide the best in pressure valve and piping fabrication, commercial and industrial construction, refinery maintenance, and equipment supply. Synergistic activities include those of its subsidiary Jomele Labour Hire and Placements, which trains and places skilled workers for industrial projects.

Abrites Ltd, from Bulgaria. "Abrites" Ltd, an innovative company founded in 2005 whose main goal is to develop diagnostic equipment of electronic components integrated into cars, trucks, bikes, etc, is in top 300 of the most profitable companies for 2013 in Bulgaria. The company has a distribution network in Australia, New Zealand, Great Britain, France, Italy, Spain, Portugal, Greece, Israel, Slovakia, Poland, Russia, Mexico, USA, Brazil and others.

National Electrical Products (NEP), from Saudi Arabia. Uniquely situated as a total power solutions provider, it gives its clients with the ability to shore up their electrical power distribution and management activities with a three-pronged strategy: providing cutting edge busbars with excellent heat dissipation capabilities, installing automated lighting systems to provide energy saving and optimal illumination, and utilizing NEP-branded panels for smart centralized power distribution.

Chandragupt Institute of Management Patna (CIMP), from India. Chandragupt Institute of Management Patna (CIMP) has been established as an autonomous institution, with active support from the Government of Bihar. The institute was established with the objective of contributing substantially to the academic and development credentials of Bihar, while fulfilling the primary role of training students to become effective managers.

AVI Prod Grup, from Romania. Since they established the company in 2002 they did our best to continuously improve. The company is specialized in gas, water & sewage and power networks and acquired all the necessary capabilities, credentials and certifications: Quality management system ? SR EN ISO 9001:2008; Environment management system ? SR EN ISO 14001:2005 and Occupation health and safety management system ? SR EN ISO 18001:2008.

The companies honored in Paris were recognized not only for their entrepreneurial achievements, but also for their dedication to continuous improvement and innovation, key concepts of the **QC100 Total Quality Management Model**. Seeking to increase customer satisfaction and optimize efficiency, the model promotes an organizational culture of engagement and a proactive approach to improving processes.

All of the winning companies in Paris have expressed their commitment to the **QC100 TQM Model**, which serves as an excellent example for other organizations in today's rapidly changing business environment. By making customer satisfaction the highest measure of quality, BID award winners set the benchmark in their respective sectors and contribute to the social and economic development of their countries, paving the way for world-changing initiatives. A key example can be seen through **BioPro Stem Technology**, whose spirit of innovation and positive growth has overcome and indeed thrived in the challenging current global economic climate.

An ongoing commitment to Quality, one of the core requirements for receiving a BID Award, can be witnessed through the distinguished companies previously honored with a BID Quality Award. Companies which already share BID's corporate seal are present in more than 170 countries and include world-renowned names on the Fortune Global 500 list such as: Operadora VIPS, of Wal-Mart Stores (1) Indian Oil Corporation Limited (96); and Beijing COFCO Plaza Development (401).

Other previous BID winners worthy of mention include Turner Construction (USA); Haki (Sweden); Ansaldo Energy (Italy); Zepter (Austria); RAO-Unified Energy Systems (Russia); Als & Cachou-TBWA (France); Tata Group (India); Plamex-Plantronics (USA); Dogus Holding A.S. (Turkey); Franklin Electric (USA and Mexico); QMS International from the United Kingdom, FSUE VO "Safety" (Russia); and Viking Line (Finland).
